

The specific details of this brochure do not apply to any particular product supplied or offered for sale. Manufacturers reserve the right to vary specifications, including colours, with or without notice at such times in such manner as deemed appropriate. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. Consult your Dealer for details regarding the specifications of any featured product. This publication shall not constitute - under any circumstances whatsoever - an offer by the Company to any individual. All sales are made by the Distributor or Dealer subject to and with the benefit of the standard Conditions of Sale and Warranty provided by the Distributor or Dealer, copies of which may be obtained upon request. While efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specific details with the supplying Dealer, especially if a selection is dependent upon one of the features advertised. You accept that if you do go ahead and make a purchase or enter into any kind of transaction, whether for payment or not, you do so entirely in reliance on your own skill and judgement and not on that of anyone else.

RIDE WITH STYLE Read the owner's manual thoroughly. Get to know your machine and its capabilities. Concentration assists anticipation. Observe other road users' movements. Brake in plenty of time. Wear quality kit, ride fit and NEVER after drinking alcohol. Good roadcraft and courtesy identify the skilled and stylish rider. Honda endorse the law that all helmet visors must comply with BS 4110. Visors that transmit less than 50% of visible light cannot legally be used on the road.

THE POWER OF DREAMS

The first product to bear the Honda name was an auxiliary engine for bicycles. Adding power to the bicycle made life a bit easier for people, and made getting around more fun. Right from the beginning, Honda was about creating things that people truly need – things that had never before existed. This takes independent thinking, audacity and imagination to follow ideas wherever they lead. It also takes determination; the passion, tenacity and innovation to never allow the dream to die, and to shape dreams into products for the world.

To realise this dream as the world prepares for a low-carbon future, Honda is leading the way in addressing the needs of people all over the globe with advanced fuel infrastructure. From bikes to cars, boats to planes and even to the way we fuel our homes and workplaces, our passion for innovation and our desire to make life better for all just goes from strength to strength.
