RACING IS MY GE TEE // STYLE CAP INTERLACED

## EVERYTHING REMAINS THE SAME. ONLY BETTER.

All change. More action, more tests and more intensive courses. Enduro racing has become suitable for the masses. It's no longer a sport for dyed-in-the-wool, hardcore fans. Everything remains the same for Iván Cervantes. If you ask him what he thinks of the changes, then he shrugs his shoulders and smiles. What matters most is that he can overcome the obstacles, celebrate victories and, in spite of everything, still remain relaxed and pursue his favourite pastime: swimming, in the sea or in the mud with his bike. Some things never change.

REAR TEE

## HIGH FIVE.

With five national level championships to his name, it's safe to say Ryan Dungey has made an incredible name for himself in the motorsports industry. The young Minnesota native is consistently committed to improving his training regimen and race results each race weekend. After claiming KTM's first-ever 450 Motocross Championship in 2012, he remains committed to earning more race wins and chasing after additional championships for his Red Bull KTM Team. With the help of Team Manager Roger DeCoster and the rest of the team as well as his race fans, family and his own will power and dedication to being the best, there is no doubt there are more championships to come for Dungey.

### 001 PLATES HOODIE

Heavily pre-washed hoodie with drawstrings on waistband and hood. Collar with button fastener, full-width front tunnel pocket, contrasting stitching, large front print. 80% cotton/20% polyester.

 (XL) 3PW1466905 (XXL) 3PW1466906

DREAM BIG  
 AND NEVER  
 GIVE UP.

Rok Bagoroš just keeps bouncing back. As a professional stunt rider, it's in his DNA. If a trick doesn't work first time in the way that Rok imagined it, he just tries it once again. Simply wiping the dust from his shoulders and back into battle. Sometimes, this wiping away of dust may take a month or so and be combined with a couple of doctor's visits, but giving up has never been an option. In the end, there's always a happy ending, a spectacular new stunt and the ecstatic fans.

## 012 JEANS LONGSLEEVE SHIRT

Stylish, highly fashionable denim shirt with embroidery and patches. 100% cotton.

(S) 3PW1463102 (M) 3PW1463103 (L) 3PW1463104

## CARE FOR A LITTLE BIT MORE?

Antoine Meo has many things to his name: talent, numerous championship titles, an iron will, vast numbers of friends and 20 motorcycles. That's right, 20 motorcycles. A few are souvenirs, some he uses for cruising and the majority for enduro trips with his friends. Because mastering a tough course together is still the best of all. And if, like Antoine, you have a small, slippery ravine beside your house, this applies all the more. 20 bikes and the perfect enduro spot right next-door. What more could you ask for?

## TEAM MUSQUIN.

Marvin Musquin lives and enjoys a championship life to the fullest. Packing his schedule with training, travel and race wins, the young French import has adapted to the US motocross racing lifestyle perfectly. But a hectic schedule doesn't keep him from showing his appreciation for his team. Before every race weekend, Musquin spends quality time with the race team and crew – just hanging out and catching up. After weeks of hard training, recovering pool soaks, perfecting his unique riding style and searching for the finest French cuisine California can offer, Marvin ultimately knows his team will help him deliver the final result.

# KEEP YOUR FEET ON THE GROUND.

Most people avoid extreme situations. Racers like Kurt Caselli ride into the thick of them. When you hold multiple AMA National Hare and Hound championships, conquer nasty Baja terrain and go full-steam into a promising Dakar Rally career as if nothing could be simpler, fearless might be a description you're born with. However, even offroad icons like Kurt Caselli are afraid of something. For Caselli, it's heights. Maybe that's why he's so comfortable blitzing across landscapes at breakneck speeds. There's nothing like being grounded.

## A WORTHY TROPHY.

Offroad champion Maria Forsberg is not superstitious, but she'll never let go of one important lucky racing idol — her 2013 Championship Bike. After winning an X-Games Gold Medal, GNCC Championship and EnduroCross Championship on one 250 XC-F, Maria has given the bike a worthy, permanent home in her own house. Lucky charm? Not a chance. But it's hard to beat the motivation the #1 plate provides for the next round of training.

**THE TRUTH AND NOTHING BUT THE TRUTH.**

Who could claim that offroad riders have a certain tendency to exaggerate? Everything happens precisely as it's told. A flock of sheep in the landing area or a trigger-happy hunter on the enduro course. Yes, you can find them. But not very often. What's always to be found at every track: friends, acquaintances and mutual respect. That's why riders meet up day after day in the paddock to impress each other with their skills and to grill and chill together.

## 176 NECK BRACE RACE 14

### Newly developed high-performance Neck Brace

- » When needed, the KTM Neck Brace can safely arrest dangerous movements of the head in both race and road use. The forces arising are transferred effectively from the neck to the upper body. The Neck Brace Race 14 offers scientifically and technologically advanced protection against:
  - hyperflexion (extreme forward movement of the head)
  - hyperextension (extreme backward movement of the head and overstretching of the head to the rear)
  - lateral hyperflexion (extreme movement of the head to the side)
  - axial loading (compression of the spinal column due to a corresponding load on the helmet)
  - posterial hypertranslation (rearwards shunting of the head into the neck)
  - uncontrolled movements of the head/helmet in the event of a crash
  - energy-absorbing material on the outer surface and body contact surface
  - CoreFlex in the thoracic spinal area with predefined breaking point for heavy impact situations
- » Variable size adjustment
- » Simple handling with quick-release fasteners
- » Unique height adjustment system on the back for different helmet spacings or sitting positions
- » Including revamped, optional strap
- » Detachable clip-on pads for simple cleaning and maintenance
- » Made exclusively for KTM by Leatt®

KIDS MX GOGGLES 14

## WORK AND PLAY.

There are kids who play with toys. There are kids who play video games. And then there are kids who play with perfecting corners, jumps and holeshots. KTM kids belong to the latter category. While they make it look so easy on the racetrack, the fact is every serious KTM racer puts in maximum effort during the week to be up front. Sure, the best thing about motocross is fun (where else can you jump your dirt bike so much!?), but even the most relaxed young racers earn the chance to fly, roost, slide and rip.

# NOT WHERE, BUT HOW FAST.

A winding mountain road or a day at the racetrack. The Streetrider handles both. It seeks out the flow. The perfect line, the latest braking point, the feeling of centrifugal force and leaning in. But also the pleasure, the countryside, the scent of freedom. The trip starts at the foot of a mountain, passes through the track finishing line and ends with an espresso. A perfect day!

## THE LAND OF OPPORTUNITY.

You can always count on the USA for opportunity. Ken Roczen can tell you a thing or two about that. Celebrated as the "German Wunderkind" during America's first impressions of the dynamic racer, he has continued to impress with championship speed, voracious scrubs, blistering track attacks and a relaxed, comfortable attitude off the bike. He has truly turned American motocross fans into Roczen fans. And he's only just begun. Whether signing autographs or enjoying the California surfing lifestyle, Ken Roczen is making the most of his US MX opportunity.

## ENDLESS FREEDOM ON THE ROAD.

To drive the KTM X-BOW over a mountain pass is an experience. There may be many road-going cars that you can drive on a racetrack. But the KTM X-BOW is a car made for the racetrack, which you can drive on the road. No mahogany; only carbon. Even the smallest of steering wheel movements is transmitted directly. Up to 2G act on the body. Driving a KTM X-BOW is beyond all comparison.

# QUALITY

### WHY IT'S CALLED "KTM" POWERWEAR:

If you ride a KTM, you know why: Because a KTM is a special motorcycle. With unrivalled ride dynamics, outstanding workmanship, and well-designed and tried-and-tested solutions down to the smallest detail. Developed, built and tested by real bike riders. READY TO RACE! With precisely this aspiration, we also develop and produce the KTM PowerWear collection. Not any old "cheap promotional articles" that we simply print our logo on, but stylish sportswear of outstanding quality and rider equipment developed and tested seriously by professionals – READY TO RACE!

### RESPONSIBILITY:

Quality also has to do with responsibility and sustainability: Consequently, for example, we use raw yarn, fabrics and colourings certified according to the OEKOTEX 100 standard in the sportswear textiles (including T-shirts, sweatshirts, baby clothing) produced in Europe. The cotton fabrics used have very long fibres and are extremely shape-retentive, while elaborate, reactive colouring processes ensure a maximum length of colour fastness. We import particularly high quality and durable nylon yarns (produced mainly in the Far East) for the important materials used in motorcycle clothing. We test all textiles regularly for prohibited substances, such as AZO dyes and allergenic constituents. Just as regularly, we check that exclusive use is made throughout the world of certified production sites without child labour or illegal workers.

### SIMPLY ASK THE PROFESSIONALS:

One significant benefit when KTM develops rider equipment: we've no need to buy in "external experts". Our facilities are literally teeming with former and current pro riders who we can ask. The responsible production manager is a former Grand Prix rider and when we want to test a new enduro jacket, then we hand it over to KTM Adventure Tours for a few weeks. Afterwards, we know precisely what works in practice and what's not.

### DON'T FORGET THE OIL CHANGE!

A T-shirt is like a motorbike: you can enjoy it for longer if you stick to the maintenance instructions. Although there's no need for an oil change with an enduro jacket, there are still a few things that ought to be observed. Otherwise, nylon can discolour, leather can break or the T-shirt can shrink more than it should. The things that need to be paid particular attention to are specified on the care label and we don't just list them for fun. If you abide by the instructions, we promise that you'll enjoy your PowerWear item for a long time.

# OUT OF REACH. IN MANY WAYS.

Give Christophe Nambotin a bike and there's no goal he can't reach. Give him a phone and you'll never reach him, or at least only with great difficulty. As brilliant as he is with his enduro bike, he has serious problems with modern communication media: email, computers, mobile phones. He could deal with all these things if he wanted to, but being reachable at any time, any place is simply not his style. But who cares if he sometimes doesn't answer, when he rides so unbeatably well.
