On Road 2009

GENUINE ACCESSORIES

At Yamaha, we believe our motorcycles and scooters should offer the ultimate expression of personal freedom and individuality, regardless of whether your Yamaha is new or used. That's why we developed our Genuine Accessory range, with products offering almost unlimited scope for personalizing your Yamaha. Where outstanding design and functionality are just as important as the quality of the materials we use. And where every product bears the same hallmark of quality as the motorcycle or scooter itself: Yamaha.

Our aim is to enable you to personalize your Yamaha exactly the way you want it to be, limited only by the bounds of technical feasibility. Which means the possibilities are virtually endless. There are many changes we can make to your Yamaha, but one thing stays the same: the warranty.

Whatever modifications and enhancements you ask us to carry out, your warranty remains unaffected. All Genuine Accessories have been tested and approved by Yamaha. They have also been specially developed for Yamaha and designed specifically for the motorcycles or scooters to which they are fitted. Which means your Yamaha remains a Yamaha. Only more so.

YZF-R125

YZF-R125 – CHECK THE SPEC – IT'S MORE THAN ANY OTHER 125

125s don't come any trickier than this. The YZF-R125 is shot through with technology derived from our MotoGP, World Superbike and Supersport race programmes. And then there are the bolt-ons accessories created to add another dimension to your first supersport experience. YZF-R125 – another Yamaha supersport legend.

XT125 & TW125

The XT125R and XT125X are united by bullet-proof Yamaha engineering that has made the XT name a legend in gruelling desert races like the Dakar. The R is kitted out with all you need to take you beyond the tarmac. The X gets a radical Supermotard spec that rules the city streets. And if you need some extra XT style there's a range of trick Yamaha bolt-ons, from luggage rack and top case to cool urban riding wear.

YBR125

We created the YBR125 to put the fun into every ride. The YBR125 takes the hassle out of getting around and will turn the rush-hour commute into something you'll look forward to. The YBR already includes a luggage rack as standard, but also for this model there are cool bolt-on accessories for added functionality.

GO YOUR OWN WAY, RIDE TO A NEW RHYTHM

Some people ride with the herd. But not everyone. Some people are confident enough in themselves to go their own way and ride to a different rhythm, the soul-shaking rhythm of the Kodo drum. Discover a new kind of power, a new kind of cool with the MT-01 and MT-03, and choose your accessories from our MT Components range to explore your own ways even further.

MT-01

MT-01 - TORQUE LIKE A HAMMER, HANDLES LIKE A SPORTS BIKE

With your MT-01 you've got a sports riding revolution, a whole new style of riding for a whole new wave of riding sensations. There really is nothing like the MT-01. And cult bikes like the MT-01 tend to inspire owners to work their own magic with trick modifications. And that's where our official MT Components come in, with this year also an MT-0S café racer fairing kit. On the following pages you will find all about them.

MT-Series
MT-01

MT performance styling

To make your MT-01 look even more radical we've created a range of easy-to-fit styling accessories, including fly screen and carbon-fibre air intake scoops. And if you're planning to personalise your MT-01 to the max, you'll be wanting the single-seat kit and carbon heat shields that fit with the exhausts available from our official Yamaha tuning kits.

Stage 1

This easy-to-fit, street-legal titanium Akrapovič muffler kit makes your MT-01 sound better, look better and feel better. Fit it in conjunction with carbon heat shields and single-seat kit.

MT-01

MT performance - tuning accessories

You own an extreme motorcycle, so it's only natural that you're going to want to make it even more extreme. That's what our factory-developed MT Performance Stage 2 and Stage 3 gear is for - to unleash serious extra performance from the big V-twin Torque Sports machine. Stage 2 and Stage 3 MT Performance accessories are for track use only.

Stage 2

Okay, now it's time to get serious. Stage 2 accessories feature a revised ECU, plus a full-titanium Akrapovič exhaust system that increases power, reduces weight and emits a race exhaust note. The full exhaust system must be fitted with the carbon heat shields and single-seat kit.

1 Stage II Performance Kit

FOR RACING/TRACK USE ONLY!

Exciting sound, extreme appearance combined with improved torque. Kit contains:

- Stage 2 ECU.
- Full Titanium exhaust by Akrapovič.

5YU-W0750-20-00

Stage 2 and stage 3 MT Performance Tuning Accessories featured in this catalogue are for track use only and are sold without warranty. This does not affect your statutory rights.

Stage 3

Want to take your MT-01 to the extreme? That's what the Stage 3 kit is for - get high-compression pistons, camshafts, velocity stacks, special clutch and valve springs and gaskets. All these parts contribute to increased power and torque when used with the also included Stage 3 ECU and full-titanium Akraprovič exhaust. The full exhaust system must be fitted with the carbon heat shields and single-seat kit.

* Stage 3 engine parts require installation by a skilled mechanic.

Stage 2 and stage 3 MT Performance Tuning Accessories featured in this catalogue are for track use only and are sold without warranty. This does not affect your statutory rights.

1 Stage III Performance Kit FOR RACING/TRACK USE ONLY!

Extreme sound, extreme appearance with maximised sporty torque settings. For experienced riders only!
Kit contains:

- Stage 3 ECU.
- Velocity stack kit.
- Valve spring set.
- Performance clutch spring.
- Gasket kit.
- High compression piston kit.
- Performance camshafts.
- Full Titanium exhaust by Akraprovič.

5YU-W0750-30-00

2 Carbon Muffler Heat Shield

Left & right carbon fiber heat shield set for slip-on and full exhaust kit. Required to fit stage I, II or III.

5YU-W0740-00-00

3 Single Seat Kit

Sporty mono seat complete with carbon tail cover. Should be combined with Carbon Muffler Heat Shields and Muffler Kit. Passenger seating not possible.

5YU-W0771-00-00

MT-Series

MT-01

❶ Alloy Footrest Kit

Fully adjustable Racing footpegs, billet high grade aluminium alloy with ball bearings in joints.

5YU-W0747-00-00

❷ Tapered Handlebar

Ergal tapered handlebar absorbs more vibrations and reduces weight. Heat treated for additional strength.

5YU-W0785-00-00

❸ Handlebar Risers

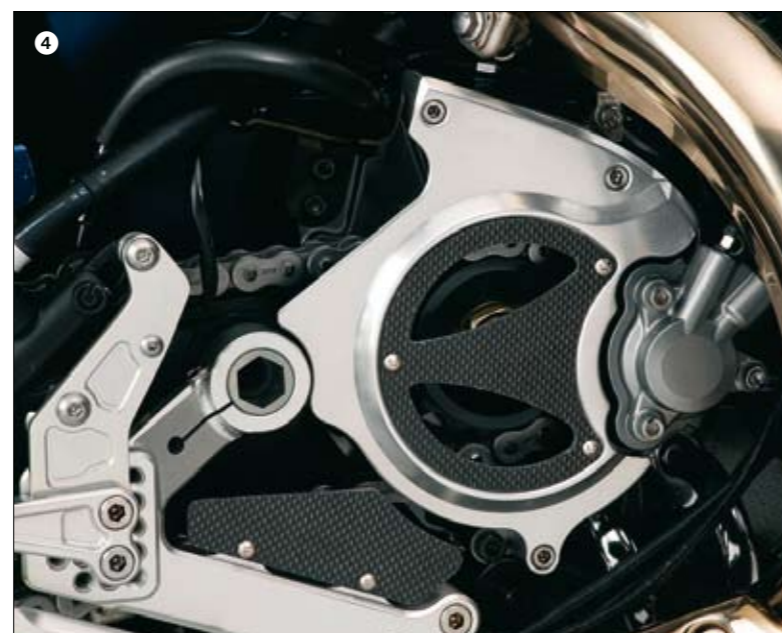

Billet high grade aluminium alloy original MT-01 design to match the tapered handlebar. Enhances an active riding position.

5YU-W0748-00-00

❹ Drive Sprocket Cover

Billet high grade aluminium alloy with Carbon inlay.

5YU-W0740-40-00

44

R-SERIES - MORE THAN A BIKE, IT'S A LIFESTYLE

In 2008 the R-Series celebrates a decade of doing it right: legendary performance, renowned build quality and eye-grabbing style. And that goes beyond the motorcycles to our range of R-Series lifestyle gear and accessories. We produce these with exactly the same commitment to brilliance we use in creating the R1 and R6 and we present them to you on the next spreads.

THE WORD ON THE STREET IS YAMAHA STYLE

Street bikes are special motorcycles because they get woven into the fabric of your everyday life. This isn't some weekend warrior deal, you're out and about all the time, so you need top-grade accessories and the kind of riding gear that works just as well when you're on your bike or hanging out. And nothing works quite as well as genuine Yamaha accessories and street riding apparel – tough, hard-wearing and effortlessly cool. Choose from a wide selection of bolt-on accessories that'll boost your Yamaha street bike.

**FZ6 FAZER S2
WHATEVER YOU
WANT, WHENEVER
YOU WANT**

You don't do the same thing every day of your life, so why would you want a motorcycle that's only designed to do one thing? You need a motorcycle with a design brief as varied and diverse as your lifestyle. That's the FZ6 Fazer S2 – do your usual stuff Monday to Friday, then when you need to get away, no need to make plans, just strap on a kitbag and away you go. The FZ6 Fazer S2 can do it all and our line of accessories is designed to accommodate to this lifestyle even more.

**FAZER 1000
-ALL-OUT
PERFORMANCE,
ALL-ROUND
VERSATILITY**

Leaning through the left-hander you can feel the Fazer 1000 doing exactly what you tell it to do. In fact you're enjoying yourself so much that one day you'll find your little weekend trips becoming big weekend trips, and then those long weekenders turn into unforgettable continental touring holidays that last a whole fortnight! That's when you may decide you need some grand turismo gear all available separately and all created for added long-distance comfort and convenience.

ONE LIFE, DON'T BE A SPECTATOR

In a life packed with opportunities but constrained by time, every day, every hour, every moment is crucial. When the chance to tour comes your way you must grab it and make each precious second count. Thanks to the Yamaha FJR and it's line-up of accessories no destination is ever too far and no opportunity is ever wasted.

FJR1300 DEVELOP YOUR IDENTITY

The FJR has class-leading levels of equipment and sophistication as standard, but we at Yamaha realise tailoring a bike to your own needs is an important aspect of ownership. That's why the engineers who created the FJR also designed a range of genuine accessories like a top case, taller screens and roller protectors to help you tailor your FJR for your life. We also produce FJR branded clothing so no one's left in any doubt who owns the cool grand tourer outside.

XT660Z TÉNÉRÉ
THE ART OF
ADVENTURE

Yamaha's art of engineering philosophy means every interface between rider and machine has been perfected. So, you can go hard, and go long. The Ténéré name stands for adventure, for handling, poise and power to blaze trails and the build quality true two-wheeled adventurers demand. The styling is fresh, clever but above all resilient. The whole package is built to take punishment not pass it on. And when your adventures demand even more there are Yamaha's official range of Ténéré accessories, built to the same no compromise standards.

General

Chain kits

General Chain Kits

Everything you need to know

Adjustment:

Always keep chain slack adjusted to the correct tightness, in accordance with the owner's manual:

- Too tight a chain will put excessive strain on transmission components and the engine itself, with a significant negative impact on their operating life.
- Too much chain slack results in noisy operation and tends to accelerate wear of linkages and chain guides.

Maintenance:

Chains wear rapidly if they are not regularly maintained:

- Cleaning with solvents or high-pressure jet washes is not recommended.
- Lubricate the chain without fail after riding in the wet or washing the machine.

In case of wear:

When one transmission component is worn, it is recommended that you replace chain and both sprockets all at the same time. If not, the operating life of the new component(s) will be compromised by the retention of the old component(s).

Safety:

Genuine Yamaha chain kits contain chains and sprockets which are strictly identical to the original equipment. This is our guarantee of quality and safety to the customer.

Original quality:

On the majority of Yamaha machines, the sides of the drive sprocket are covered by a noise-absorbing rubber layer. This extra feature is only found on original Yamaha drive sprockets and chain kits.

Application:

To establish which chain kit is appropriate for your machine please refer to the application chart on page 161-162. Your local YAMAHA dealer will be able to advise and provide additional information about replacing chain kits.

The Story of Yamalube

Our number one goal in creating Yamalube is to ensure that you are getting the finest oil available for your Yamaha. Of course, no one oil is perfect for every application. That's why Yamalube is available in the precise formula your Yamaha Engine needs.

THE YAMALUBE STORY

When Yamaha started making engines the engineers followed the common practice of recommending "off-the-shelf" oils. Experience began showing that conventional oils didn't always offer the level of protection against wear and tear the customer paid for. Unfortunately, that sometimes resulted in significantly shorter engine life and a loss in performance. It became clear that our customers needed and deserved an exceptional oil product. The same engineering team began searching for lubricants that met Yamaha's high standards. They insisted on the finest ingredients in precise formulations that would give dependable protection and enable the engine to deliver the high performance it was designed to give. This search eventually led to the development of our own premium oils - Yamalube.

WHAT IS YAMALUBE?

Each Yamalube oil is made from base oils, additives, and solvents in combinations specific for the application. For example, the additive package for Yamalube 2-M is outboard oil is very different from our Yamalube 2-R for motocross motorcycles, even though both are 2-stroke engines. These two engine types have different stress loads, with the outboard often operating for extended periods under heavy load while the motocross engine is subjected to frequent bursts of throttle under extreme conditions. Consequently, the oils developed for these engines have different lubrication formulas.

Yamalube
Products

YAMALUBE S 4

- Type: Semi Synthetic.
- Oil name: 4 Stroke Motor Oil.
- Specifications: API SG/ JASO MA.

10W40 (12X1L)
YMD-65021-01-01
10W40 (4X5L)
YMD-65021-05-01
10W40 (1X208L)
YMD-65021-20-81
10W40 (1X60L)
YMD-65021-60-01
20W50 (12X1L)
YMD-65022-01-01
20W50 (1X60L)
YMD-65022-60-01

YAMALUBE FS 4

- Type: Fully Synthetic.
- Oil name: 4 Stroke Motor Oil.
- Specifications: API SG/ JASO MA.

10W40 (12X1L)
YMD-65011-01-01
10W40 (4X5L)
YMD-65011-05-01
10W40 (1X60L)
YMD-65011-60-01
15W50 (12X1L)
YMD-65012-01-01

YAMALUBE S 2

- Type: Semi Synthetic.
- Oil name: 2 Stroke Motor Oil.
- Specifications: 81 YMC 525.

YAMALUBE M 4

- Type: Mineral.
- Oil name: 4 Stroke Motor Oil.
- Specifications: API SG.

10W40 (12X1L)
YMD-65031-01-01
10W40 (1X208L)
YMD-65031-20-81
